

Sponsorship Opportunities and Donations:

We are looking for Corporate and Legacy Contributors that will become a partner in the success of these students futures.

We hold several major fundraisers each year that accounts for the majority of money raised. A Skeet Shoot in the Fall Semester and Pork Butt sales during Super Bowl weekend during the Spring Semester. We gladly accept direct financial contributions to the booster club and provide sponsorship recognition during the year at these fundraisers.

We also hold raffles, live and silent auctions throughout the year for which we need items and baskets.

Thank you for your consideration!

Items that we need:

Cash/Gift cards/ Gift certificates

Merchandise- Anything is appreciated!

Branded Items- Great way to promote your business!

George Ranch High School FFA Booster Club

A 501 (c) 3 organization

Our Mission:

Our goal is to provide financial support to George Ranch FFA members in the form of Scholarship awards and chapter activities.

Scholarship awards are provided for graduating seniors that are planning on attending a university, an accredited technical school or enlisting for military service.

The chapter activities include support for active FFA/Agricultural Sciences students with financial support for projects and travel and competition expenses.

Why it is important:

Our future is depended on the success of these programs. Every day you use a product that was developed with the education learned from a FFA/Agricultural Sciences student. From the food you eat to the clothes that you wear these products were produced by the farmers and ranchers that developed skills and education thru FFA programs. Students also learn trades such as agricultural mechanics, welding and construction techniques that lead to rewarding careers.

These students are not afraid of the hard work that is required for a future in agriculture, raising animal projects or building a mechanical project that can, in some cases, take years to complete. Very seldom does the selling of these projects recover the cost of materials and feed that are required to complete these projects.

Funding and Scholarships are hard to come by in the very competitive FFA/Agricultural Sciences programs. That is why we are reaching out to you for support of George Ranch FFA and its students. We currently have over one-hundred active members that we are working to support.

DID YOU KNOW?

Agriculture is the **nation's largest** employer. With more than 23 million jobs -involved in some facet of american agriculture.- that's 17% of the civilian workforce.
